Fatherhood is an emotional transition for men and yet it often is not treated in this way. Feelings around fatherhood are not shared in the same way as feelings around motherhood. Many men enter into the unknown without a guide, feeling lost and alone. When a father shares his experience, it enables vulnerability, honesty, growth and reflection. This collection of poems has been written by fathers from all over the world. They have opened their hearts to share their experiences of journeying with their children and navigating the joys and challenges of fatherhood.
