About This Book: Studying shadow men causes them to appear. Writing about them does, too. Some creepy things have happened to me since I first decided to publish about shadow men. They're not happy that I wrote about them. Here's my story explaining.

About this series: This is not just a horror novel or a true life story, it's also a game. I wanted to write out my real life supernatural experiences, but I also wanted to remain anonymous, so I disguise my identity by writing two fake stories along with every real story I tell.

It's your job to figure out which story is true and which ones are fake.
